EDUCATION

University of Massachusetts Lowell

MS, Computer Science
Expected May 2026
Provost Graduate Fellowship

Prasad V Potluri Siddhartha Institute of Technology

BTech, Information Technology
Vijayawada, India • Apr 2024

TECHNICAL SKILLS

Languages

Python • JavaScript • C++ • C • SQL • Java

Frameworks

React • Node.js • RESTful APIs

Tools

Git • Blue Prism • SEC EDGAR

Domains

Cybersecurity • ML • Data Analysis RPA •
Full-Stack Development

CERTIFICATIONS & AWARDS

- Smart Coder Cert — SmartInterviews
- Programming in Java — NPTEL
- 3rd Place, Inter-College Hackathon

PROFESSIONAL SUMMARY

MS Computer Science student at UMass Lowell and Provost Graduate Fellow with experience in cybersecurity, NLP-based data extraction, and full-stack web development. Skilled in Python, JavaScript, React, and SQL. Seeking a software engineering or research internship to contribute to impactful, data-driven projects.

EXPERIENCE

Orientation Leader

UMass Lowell • Lowell, MA
May 2025 – Present

- Facilitate orientation sessions for incoming students, improving campus acclimation and resource awareness.
- Collaborate with staff to coordinate onboarding logistics and resolve student concerns in real time.
- Serve as a peer mentor, fostering an inclusive community that supports student success.

Graduate Research Intern

UMass Lowell • Lowell, MA
Oct 2025 – Dec 2025

- Extracted Critical Audit Matters (CAMs) from SEC 10-K filings, converting regulatory text into structured datasets.
- Engineered rule-based NLP extraction logic in Python to isolate disclosure sections across hundreds of reports.
- Improved extraction accuracy and consistency through iterative data validation.

Cybersecurity Intern

PaloAlto Networks / AICTE Eduskills
May 2023 – Jul 2023

- Completed 10-week program covering threat detection, incident response, security policy formulation, and vulnerability prevention.
- Applied enterprise-grade security frameworks to simulated real-world attack scenarios.

RPA Intern

Blue Prism / AICTE Eduskills
May 2022 – Jul 2022

- Designed and deployed RPA workflows in Blue Prism to automate data entry, report generation, and customer service operations.
- Delivered automation solutions across IT, sales, and procurement — reducing manual effort and improving reliability.

PROJECTS

URL Security Assessment Using ML

Python • Scikit-learn • Feature Engineering

Built an ML classifier distinguishing malicious from benign URLs via structural/lexical feature extraction; co-authored a published paper.

Smart IoT Watering System

IoT • Python • Sensor Networks

Developed a sensor-driven system automating plant watering decisions based on real-time soil moisture, temperature, and sunlight data.

Research Lab Website — Full-Stack App

React • Node.js • REST APIs • SQL

Built a lab site with public portal and secure student dashboard; implemented JWT auth, RESTful APIs, and database-backed content management.

Tastes & Trails — Travel & Food Journal

HTML/CSS • JavaScript • Responsive Design

Designed a responsive travel journal with rich visual storytelling, photo galleries, and an accessible UI.

PUBLICATION

URL Security Assessment Using Machine Learning — Sri Vijaya K, Shravani V, **Nikitha V**, Chaitanya M, Mohitha M. Apr 2024.
